# SAMPSON IS IN CONTROL

San Juan Forts Easily Dismantled by American Guns.

CITY AT THE ADMIRAL'S MERCY AWAITING CAPTURE.

Washington, May 13.—Special—The navy department this morning received the following dispatch from Admiral Sampson dated St. Thomas yesterday:  
"A portion of the squadron under my command reached San Juan this morning at daybreak. No armed vessels were found in port. As soon as it was sufficiently light I commenced an attack upon the batteries defending the city. The attack lasted about three hours, and resulted in much damage to the batteries and incidentally to a portion of the city adjacent to the batteries. The batteries replied to our fire, but without material effect. One man was killed on board the New York and seven slightly wounded in the squadron. No serious damage to any of the ships resulted."

[Signed] SAMPSON.

## The Bombardment.

St. Thomas, W. I., May 13.—Special—Sampson's squadron has San Juan at its mercy. The city was effectually bombarded yesterday, and last evening a surrender was made. The squadron sailed into the harbor early yesterday morning and immediately opened fire. Twenty or thirty Spanish guns replied, but without effect, and the fleet's second round silenced Morro, fired the town, and drove Spaniards from their guns repeatedly. The Spaniards' marksmanship was wretched. They hit the New York once, killing one man and injuring three. The Iowa was hit once, but it did no damage except to a marine and two seamen, who were only slightly injured. There were six terrible collapses in the town, as if buildings were falling. The bombardment lasted three hours. No attempt was made to take the town or destroy it. The fleet is now waiting for the Cape Verde fleet. There were no armed vessels in port when the bombardment began.

At the last accounts, the city itself had not surrendered, though Admiral Sampson had it completely at his mercy. It has been deserted by the merchants and non combatants, but Gov. Macias stuck to his post, giving orders and asserting that he would die before he would surrender. His daughter, Pauline, the belle of San Juan, remained by his side.

Every one in St. Thomas believes that San Juan has fallen and that Sampson has won a bloodless victory, his nine ships escaping without injury.

Admiral Sampson's statement that he attacked with only a portion of his fleet is taken to indicate that he did not find it expedient to take the entire squadron into the harbor, though it is not believed he has separated his fleet.

## Oregon in Danger.

Washington, May 13.—Special—The arrival of the Spanish Cape Verde squadron at Martinique, the French possession in the West Indies, places the battleship Oregon and her consort, the gunboat Marietta again in danger. When last heard from the Oregon was at Bahia, Brazil. She has probably left there and is now sailing north to join Sampson's squadron. If this surmise is well founded, she could easily be intercepted by the Spanish fleet.

## Sampson's Instructions.

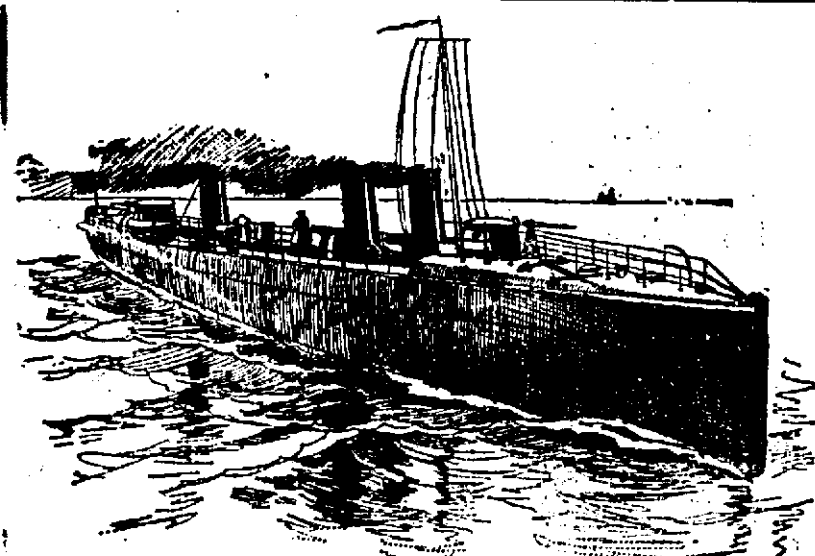

Washington, May 13.—Special—The instructions to Admiral Sampson contemplated the reduction of the defenses at San Juan in conjunction with the destruction of the Cape Verde fleet. As he did not find the fleet in these waters, it is assumed by the authorities that he lost no time in waiting for it, and immediately began operations against the fortifications in the harbor.

## An Army of Occupation.

Tampa, May 13.—Special—Indications are that the first troops leaving here will be sent to Porto Rico as an army of occupation. Active preparations are being made to depart.

## Flying Squadron Sails.

Norfolk, Va., May 13.—Special—The flying squadron sailed south this morning.

TORPEDO BOAT PORTER.

The Porter's name was given her in honor of Rear Admiral David D. Porter. If she were running at the rate of 34 knots an hour, it would take her 66 seconds to pass over 900 yards of danger space. Her length is 176 feet; beam, 17 feet; extreme draft, 8 feet. Her guaranteed speed is 37.5 knots an hour. Her engines are capable of developing 4,200 horsepower, which is greater than that of the gunboat Yorktown. She is formidably armed, carries three torpedo tubes, and the guns have a very wide range.

## M'ELROY TO LEAVE FOR BROOKLYN

TAKES NAVAL EXAMINATION THERE.

Former Ensign Likely to Be Reinstated as a Lieutenant, and at Once Assigned to Duty—Graduate of Annapolis—Seven Years in the Service.

Ex-City Attorney Horace McElroy has been ordered to report to the examining board of the United States navy at Brooklyn, N. Y., to stand examination as a line officer in the United States naval service. He will leave for Brooklyn as soon as possible, probably early next week.

Mr. McElroy was a graduate of the United States Naval Academy at Annapolis, and was in the navy from 1889 to 1897, resigning as an ensign. He had always regretted his action resigning, and offered his services to the government at the first prospect of war. Later Congressman Cooper took up Mr. McElroy's case, and pushed his claim. As the result, the order for examination was issued. If he is reinstated, Mr. McElroy is said to be very likely to be appointed a lieutenant, and assigned to active duty.

May Go to Sea.

A Milwaukee Sentinel dispatch says: "Representative Cooper was at the Navy department today and secured from the secretary an order for the immediate examination of Horace McElroy, of Janesville, for a position in the line of naval officers. Mr. McElroy is the present city attorney of Janesville. He is a graduate of Annapolis, and has served in the navy, resigning to enter private business. On passage of his examination he will probably be appointed a lieutenant in active service and assigned to duty at sea."

At Mr. Cooper's Request.

The Evening Wisconsin dispatch is as follows: "The Milwaukee Wisconsin, speaking of Mr. Cooper's telegram, says: 'Representative Cooper has taken action on which will probably result in the reinstatement in the navy of Horace McElroy. McElroy was a former ensign in the navy and was honorably discharged at his own request. At Mr. Cooper's request the department ordered that McElroy be directed to report here immediately for examination with a view to his reinstatement.'"

## CRACKER FACTORY FOR BOWER CITY

W. S. AND M. G. JEFFRIS ARE THE SOLE OWNERS.

Building Will Be Four Stories High and Built of Brick and Will Be in the Rear of the Postoffice—George Hackett Will Have Charge—Many Industries Coming.

Janesville is to have a cracker factory which will be an entirely new and novel industry for the Bower City. In the rear of the postoffice several men and teams are now at work on the excavation, and within the next few days masons will have under way the walls which will support a modern two-story brick building, seventy feet long by thirty-five feet wide. The structure will occupy the vacant space between the present Honestel mill and the F. M. Marzluft & Company shoe factory, running back to within a few feet of the river.

Work To Be Rushed.

Edward J. Rathbun has the contract for mason work, with orders to rush the job to completion. The carpenters will follow close on the heels of the masons, and it is expected that the entire structure will be ready for occupancy by the middle of July. George Hackett, the well known baker, who is now conducting a shop on Park street, will have full charge of the new factory, and a better posted man in the business would be hard to find. For the manufacture of crackers of all shapes and sizes the latest patented machinery has been purchased at a large expense, and nothing has been neglected to make the plant a most complete one in every respect.

An Important Industry.

Many hands will be given work when all is in readiness to start, which will in itself mean much to the city.

Aside from the manufacture of crackers, bread and all other articles manufactured in a first class bakery shop will be turned out to be wholesaled to the public. W. S. Jeffris and M. G. Jeffris, of this city, are the owners of this new enterprise that will add additional fame to the Bower City, and it is the wish of their host of friends that they may build up a business throughout the land that will be second to none.

## BLAZE THIS AFTERNOON.

Small Building on Hickory Street Slightly Damaged.

Shortly after 3 o'clock this afternoon fire broke out in a small building at 105 Hickory street owned by Thaddeus Hesley. The fire started under a stairway, but its origin is a mystery. The building was damaged to the extent of about \$300. The insurance amounts to \$600.

# CUBA NOT TO BE INVADED

Troops Will Not Enter the Island For Some Time.

WILL AWAIT DISPOSITION OF CAPE VERDE FLEET.

Washington, May 13.—Special—The invasion of Cuba has been temporarily abandoned until further news can be obtained of the Spanish fleet.

## The Affair at Cardenas.

Washington, May 13.—Special—The unfortunate affair at Cardenas in which half a dozen men were slain has evoked much criticism here. The attack of the Americans upon the forts is regarded as an act of bravado rather than of bravery. Nothing commensurate to the risk run was to be gained, even if the attempt to dislodge the Spanish troops had been successful. It will probably be necessary, in order to secure a safe landing place for the invading troops, to drive the Spanish out of these works, but when the need arises the job will be performed effectively. In the meantime these desultory attacks are to be censured as a needless expenditure of ammunition and a foolish risk of human life.

## Will Be a Hard Race.

Washington, May 13.—Special—If the Spanish admiral obtained information at Fort De France regarding the location of Sampson's fleet he is probably now heading for Cuba. If they attempt to reach Cuba by the Yucatan Channel at West End island, it will probably be impossible for Sampson to intercept them. It will also be a hard race for the flying squadron to overtake the Spanish warships if the former undertakes to reach Cuba in advance of the enemy.

## The Spanish Squadron.

Washington, May 13.—Special—The navy department is officially informed that the Cape Verde fleet is off Martinique. The whole Spanish flotilla was sighted yesterday steaming north.

Madrid, May 12.—Special—It is said the Spanish fleet at Martinique has received orders to sail immediately. Its destination is unknown.

## Could Not Land.

Key West, May 13.—Special—The dispatch boat Dewey arrived here this morning, having failed to land her Cuban expedition. The landing party was engaged by Spanish cavalry. During the fight the Manning and Hornet shelled the Spaniards, killing a large number and injuring many.

## Lying in Wait for the Oregon.

Washington, May 13.—Special—Some naval authorities believe the Spanish fleet is going to meet the Oregon, Marietta and Buffalo.

## Gone to Meet the Spaniards.

Washington, May 13.—Special—A special from St Thomas reports that Sampson has left San Juan to meet the Spanish fleet.

## For the Philippines.

Gibraltar, May 13.—Special—A second Spanish fleet now at Cadiz is said to be preparing to escort a strong military expedition to the Philippines.

## TEN ARE BURIED ALIVE

Collapse of Two Incomplete Buildings in New York With Fatal Results.

New York, May 13.—[Special]—The rear portions of two incomplete buildings collapsed this morning, carrying ten workmen down in the ruins. Two corpses have been taken from the debris, besides four men who are badly injured. Others are still buried.

## TO ANSWER FOR ASSAULT

James Ryan is on trial at Edgerton for raising a disturbance. James Ryan, a former local saloon-keeper, left this morning for Edgerton, where he was put on trial today

before Justice Smith, the charge being assault and battery. The defendant is charged with creating a disturbance in his Edgerton saloon some three weeks ago, and resisting an officer. During the fight that followed, Ryan was badly battered. Attorney J. J. Cunningham, of this city, appeared in behalf of the defendant, and several witnesses were sworn on both sides.

## ALL THE NEWS OF THE BADGER STATE

### GRAND LODGE OF PYTHIANS FINISH BUSINESS.

Election of Officers for the Ensuing Year Held and the Signs of Appleton Viewed—Wisconsin Army Officer Will Receive Deserved Promotion—Notes and News.

Appleton, May 13.—The Knights of Pythias grand lodge finished three days of business in a day and a half, closing before dinner on Thursday. The delegates in the afternoon saw the sights of Appleton and vicinity, while waiting for the banquet which was served at Odd Fellows' hall by the home lodge in the evening. The banquet was a most pleasant affair. About 307 covers were laid, and when the guests sat down at 10 o'clock last evening every place was taken. Most of the representatives had remained for it. The room was profusely decorated and Herman Erb, Jr., was toastmaster, announcing the following toasts: "Our Ode," F. B. Hopkins, P. G. O.; "Our State," Joseph Schroeder, P. G. O.; "Our Ladies," Ogden H. Fethers, S. E.; "Our City," P. T. John Faville; "Our Country," P. T. Colgrove, supreme chancellor.

The grand lodge elected these officers, the expected fight for one or two offices falling to materialize at the last moment:

Grand Chancellor—D. G. Olsson, Oconto.

Vice Grand Chancellor—H. R. Potter, Fond du Lac.

Grand Keeper of Records and Seals—Frank Barry, Milwaukee.

Grand Master of the Exchequer—Frederick Kraus, Milwaukee.

Grand Master at Arms—M. J. Hart, Ashland.

Grand Inner Guard—Froel Klaus, Winnebago.

Grand Outer Guard—W. O. Winter, La Crosse.

Trustees for Three Years—M. G. Jeffris, Janesville.

The large part of the morning session was taken up in the reception of Philip T. Colgrove, supreme chancellor of the order, who after being welcomed, spoke in a vein that caused the most favorable comment, not referring alone to Pythianism, but to its connection with the world in general. He then proceeded to exemplify the secret work of the order, largely for the benefit of the local Pythians. The newly elected officers were then installed.

The next session of the lodge will be in Milwaukee, beginning the second Tuesday in May 1899, as, despite the announcement that Madison would try to secure the next meeting, the session closed without the receipt of an invitation from the Capital city.

### COL. DARLOW MAY BE PROMOTED

Milwaukee, May 13.—Among the Wisconsin soldiers whose promotion friends are asking the president to take into consideration, is Col. J. W. Barlow, engineer in charge of the Great Lakes district of internal improvements stationed at Green Bay. Col. Barlow entered the army from Darien, Walworth county, and has a fine military record as a commanding officer. Since the war he has been in the Engineer corps, where he has rendered excellent service which is recognized by the department in giving him a complete division of internal improvements for supervision and the detailed reports from the engineers in the division pass through his hands. The colonel has been in Washington during the past few days and his friends among the Wisconsin delegation have urged that he be promoted to be a brigadier general of volunteer troops.

### AMONG THE SPOONY COUPLES

Bicycles With Flash Lights Interrupt Many a Tyrod.

Several young men in this city who ride bicycles have banded together and are having all sorts of fun these nights by raising havoc with the numerous loving couples about town who make it a point to do their spooning under cover of darkness.

This gang of mischievous boys have provided each of their wheels with the strongest of bicycle gas lamps which throw a strong flash light fifty feet away. Last evening eight of these young men rode to Jackson street bridge where, after discovering and embarrassing many a timid couple, they rode away undetected. They next made the rounds of the different school houses, where their strong lights flashed on many a surprise.

At the Jefferson school they found a couple on each set of steps, while the same state of affairs existed on the steps of the Washington school.

### NEW FUNERAL DIRECTORS

Another Firm Will Shortly Engage in the Undertaking Business.

Janesville is to have a new undertaking firm composed of George R. Davis and Joshua Crall. Within the next few days they intend to open in the business section of the city an establishment that will be second to none in this section.

Mr. Crall, who is proprietor of an east side livery, has ordered as costly and handsome a hearse as is to be found in the larger cities, which, with other new carriages, will make his outfit complete.

Mr. Davis, the junior member of the firm, has had several years' experience in the undertaking business, and is well posted in his chosen profession. The members of the new firm have a host of friends who will wish them success.

### SHARP ADVANCE IN FLOUR

Grocers Who Laid In Stock Early Are Realizing Handsome Profits

Local grocersmen who were fortunate enough to lay in large stocks of flour several weeks ago are now smiling to themselves because of the sharp advance in prices. For the past two weeks jumps of 25 cents a sack have been taken over a few days until now it has become nearly an every day occurrence.

Flour is selling now at retail for nearly three times as much as it did this time last year. There is no indication that it will go lower and it may advance much more before the end is reached as there is a scarcity of wheat. Home patent brings \$4 a sack, today and Minneapolis sells for \$4.25. The home straight brings \$3.85 a sack.

### FROM SWELL TO SOLDIER.

Janesville Man Who Likes the Change From Social to Camp Life.

The Milwaukee News, in its sketches of life in Camp Harvey, has this to say of a well known Janesville man, who is now doing duty in Captain Hanson's company:

Shepherd Sheldon used to have a reputation when he was at the university of being one of the swellest boys in the institution. He was a member of the Phi Si fraternity and was almost a fashion plate when at the university. Just recently, too, he began the practice of law in Janesville and the outlook for him was very bright indeed. But when the call for volunteers came Sheldon volunteered with Co. A, of the First regiment—the Janesville company—and anybody who sees him now would hardly recognize the university swell of two years ago in the recruit with a uniform which comes far from fitting. But Shepard says he likes soldiering just the same, and that he is thoroughly enjoying his life in camp. Sheldon's father is one of the most influential men in Janesville.

### NERVOUS DEPRESSION.

[A TALK WITH MRS. PINKHAM.] A woman with the blues is a very uncomfortable person. She is irritable, unhappy and frequently hysterical.

The condition of the mind known as "the blues," nearly always, with women, results from diseased organs of generation.

It is a source of wonder that in this age of advanced medical science, any person should still believe that mere force of will and determination will overcome depressed spirits and nervousness in women. These troubles are indications of disease.

Every woman who doesn't understand her condition should write to Lynn, Mass., to Mrs. Pinkham for her advice. Her advice is thorough common sense, and is the counsel of a learned woman of great experience. Read the story of Mrs. F. S. BARNETT, Westphalia, Kansas, as told in the following letter:

"DEAR MRS. PINKHAM—I have suffered for over two years with falling, enlargement and ulceration of the womb, and this spring, being in such a weakened condition, caused me to flow for nearly six months. Some time ago, urged by friends, I wrote to you for advice. After using the treatment which you advised for a short time, that terrible flow stopped.

"I am now gaining strength and flesh, and have better health than I have had for the past ten years. I wish to say to all distressed, suffering women, do not suffer longer, when there is one so kind and willing to aid you."

Lydia E. Pinkham's Vegetable Compound is a woman's remedy for woman's ills. More than a million women have been benefited by it.

## STREETS NEED MUCH IMPROVEMENT

## CITY HIGHWAY COMMITTEE ON A VISIT TO MADISON.

Will Investigate the Manner of Laying the Pavements in the Capitol City—Much Work Will Have to be Done in Janesville the Present Season.

Members of the local highway committee, with the single exception of Alderman E. F. Carpenter, spent the day in Madison, where they went to inquire into and see for themselves the method of building streets as carried on by the highway committee of the Capitol City. Those who made the trip were: Aldermen Frank Efield, J. B. McLean, Fred Kothman, John W. Peters, Street Commissioner Palmer and City Engineer Perry Brown.

Better Streets Needed. Better streets are needed in the city of Janesville, both in the residence and business portions, but before another dollar is expended in improving these highways the members of the highway committee intend to become informed as to how to use the money to the best advantage. In the city of Madison are today to be found the best macadamized streets of any city in the state outside of Milwaukee. In every portion of the residence section this work of macadamizing has been carried on at a cost of several thousand dollars, and that the citizens of the Capitol City think well of their investment is plain to be seen in the fact that they are now carrying the good work on far into the country districts that border on the lakes.

Seek Information. In making the trip to Madison today the local committee intend to secure just as many pointers as they possibly can as to how the Capitol City has succeeded in building these excellent thoroughfares. They will also make it a special point to see what kind of material is used and as to the cost. The method of constructing the streets from the time the first layer of coarse rock is laid till the smooth layer is placed on top, will be carefully studied by the local delegation, so that it is expected when they return they will be well supplied with the desired information that will prove a blessing to the taxpayers of Janesville.

A Large Outlay Will Be Made. That the streets of Janesville are to be improved this summer in a way that will be a credit to the town is now a settled fact. In the resident portion of the town the work is to be carried on upon the whole sale scale, and considerable money is to be expended in the work.

"Before we lay out one dollar in street improvements we intend to see that the money is well expended," said a member of the highway committee, "and I know that I speak for the balance of the committee. We are in favor of making street improvements in Janesville this summer in a way that will be a credit to the city. We have expended several hundred dollars in a street roller and a stone crusher which are both first class, and are now the same as are used on the streets of Madison. The work of improving the streets of Janesville of late years has simply been thrown away, and the visit of this committee to Madison today is for the purpose of starting the good work in the right direction and to put a stop to this throwing of money away where it does no good."

Work Will Begin Soon. "You can just say," continued the speaker, "that Janesville will be proud of her streets, before many months, and that the work of improving them will be well under way before the passing of many days."

## FLOUR INCREASING IN PRICE

Stocks Are Low and Grocers Are Compelled to Pay War Rates

J. M. Shackleton, the local miller, is home from a flour selling trip into Illinois and Wisconsin. In many towns he reports that the grocery stores are low on flour, and that the average retail price per sack is \$2.

In the way of sales Mr. Shackleton disposed of a car of flour for the handsome price of \$1,125, which is a noticeable increase compared to what flour was selling for a year ago.

## JUDGMENT ON FOUR NOTES

Frank Kaines Will Have To Pay L. O. O'Brien \$388.21.

In the municipal court this morning judgment for \$388.21 was rendered against Frank Kaines in favor of L. O. O'Brien. The judgment was based on four promissory notes given the plaintiff by the defendant.

Mr. Kaines is a well known farmer residing east of the city. Mr. O'Brien is engaged in the implement and live stock business in this city.

## FOOD IN LIQUID.

More Easily Digested Than When in Solid Form.

Persons who do not obtain the desired nourishment from ordinary food, will find a decided gain by using the hot food drink. Postum, as it is made from especially selected portions of the field grains that furnish the body with the parts needed. It is in liquid form and is easily and quickly absorbed, but it is a pure food drink that gives great strength to young and old.

It is especially recommended to those who are unpleasantly affected by common coffee.

Greens will it.

## HAVE FISH STORIES TO TELL

Jolly Party of Fishermen Start For Lake Koshkonong.

A jolly fishing party composed of Deputy Sheriff Wallace Cochran, Clerk of the Circuit Court T. W. Goldin, Register of Deeds O. D. Rowe, and City Livestock O. C. McLean, left the city at an early hour this morning in a two-seated rig which was well loaded down with good things to eat. Their destination was Lake Koshkonong, and judging from all reports they carried enough fishing tackle to frighten off every fish that ever had any intention of biting.

They expect to return at a late hour this evening, and anxious friends are waiting reports.

## DEATH SUMMONS COMES TO MANY

## MRS. MARGARET MILTMORE PASSES AWAY.

Was an Active Worker in Church and Relief Corps Circles—Michael Finnegan Expires at His Country Home—Old Resident of Beloit Passes Away.

Mrs. Margaret B. Miltmore, widow of the late Ira Miltmore, died at her residence, corner of Eastern and Center avenues, at an early hour this morning. Mrs. Miltmore was seventy-nine years old and was one of the pioneers of Janesville. About Christmas she was taken ill, and although all that medical skill could do was done for her she gradually grew weaker until death came.

Mrs. Miltmore was one of the most highly esteemed women in the city. For many years she was a member of the Baptist church, and was at all times an active worker in the cause of religion. She was also one of the charter members of W. H. Sargent Woman's Relief Corps, and took an active interest in the work of the society. Her absence from its meetings of late has been the cause of much regret among the members.

Mrs. Miltmore leaves two sons to mourn her departure—O. K. Miltmore, of this city, and O. I. Miltmore, of Huron, S. D.

The funeral will be held at the house at 3 o'clock on Sunday afternoon, Rev. Arthur O. Kempton conducting the services. The burial will be in Oak Hill cemetery.

Mrs. Sarah Darrow. Beloit, Wis., May 13.—[Special]—Word was received here yesterday of the death of Mrs. Sarah Darrow, at the home of her daughter in Chicago, at the age of eighty-six years.

Mrs. Darrow was a resident of this city a great many years, and all who know her will remember her with pleasure. She possessed a remarkably bright mind and enjoyed the best of health, even in her later days. She had resided for the past few years with her daughter in Chicago, but called Beloit her home, and spent a great deal of her time of late visiting her many friends here. The funeral will occur from her old residence in this city, at the corner of School street and Park avenue this afternoon at 3 o'clock.

Michael Finnegan, of the town of Rock, died at 3:15 o'clock this morning, aged 61 years of pneumonia. He leaves a wife and nine children—Mrs. Mary Ford, of the town of Porter; Henry Finnegan, of the town of Center; Mrs. Thomas Tobin, of the town of Plymouth; Mrs. Walter Tobin, of the town of Janesville; Thomas, John, Joseph, Ellen and Jane Finnegan, of the town of Rock. The funeral services will be held at 3 p. m. on Sunday.

John L. Saxton, one of the pioneers of Walworth county, died of heart disease in Darion Tuesday, aged 70 years. He leaves a wife and six children, one of them being Isaac L. Saxton, who was shot in Darion a year ago.
